

Workshop Meeting of the Livonia Town Board  
Held at the Livonia Town Hall  
Monday, October 14, 2024

Supervisors present: Hiller, Kukowski, Hass, Supervisor Kluge Jr and Spencer were absent.

Staff present: Deputy Clerk/Treasurer Fiedler, Road Maintenance Superintendent Kelly, Parks and Cemetery Superintendent Aubart.

The Workshop Meeting came to order at 10:00 am.

Crack Filling: Discussion about crack filling certain areas of the township this fall. The cost of completing it in the fall versus the spring, the potential for more wear in the winter and how many miles to compete, the difference between routing and air compression. One contractor has driven the roads and stated there is a lot of work to clean up the cracks. Neither one of these contractors would router the cracks but blow out with air compression. Hiller/Kukowski unanimous to approve Allied for the contract not to exceed \$35,000 and 5 miles to be crack filled, Hiller authorized to sign contract.

Moratorium on Solar Farm: Township has a moratorium on solar farms, depending on size of solar farm who will get any say regarding where it goes. Xcel reached out to county regarding solar farm related business, the township provided comments they were not in favor of adding solar related business as an interim use in Section 7 agricultural district. Also opposed to adding that classification to the general rural district. There was discussion on the setbacks, parking, buffering and where they would go in the township. The town board did not feel there was enough time to adequately provide comments.

West Hunter Lake project: Things to address going forward: asphalt driveway, cutting far enough back for driveways, hills and curbing, height of the road. Asphalt driveway needs to be addressed how to fix that. Cutting back driveways is the contractor's responsibility and should be in their bid. To fix some of the hills in the development parts of the road were raised and some parts had curbing added. The seeding and shouldering were completed that week. Will put in a small build up along shoulder to direct water. Will evaluate situations individually going forward and address them separately. Looking at future projects would like to send out a letter for dates and open house for the residents that will be involved in the project.

The Workshop meeting concluded at 11:19 am.

Dated this 25<sup>th</sup> day of November 2024.
